Gliped lead pack

140 founders and CEOs across India, the UK, Canada, the US and MENA. Batches 01 to 04. Generated 29 Oct 2026.

Leads	Priority (60+)	Warm (40 to 59)	Nurture	Verified emails	Email not found	Email pending
140	18	121	1	51	69	20

Region	Leads	Verified emails	Priority
India	21	12	7
UK	35	15	4
Canada	15	8	2
US	40	8	2
MENA	27	7	2

How to use this pack

1. Start with Priority leads. Warm up on LinkedIn for a few days, then send the connection note, then the first DM once they accept.
2. If the connection isn't accepted within 5 days, or there's no reply to the first DM, send the cold email to the verified address. One email follow-up after 5 days, on the same thread.
3. Before sending, spend 30 seconds on their recent LinkedIn activity. Where a message says [one line on ...], read that post and write the line yourself.
4. "Verify profile" means the LinkedIn link is a people search. Match the company and role first.
5. Log every step in the Tracker tab of Gliped_Outreach_Tracker.xlsx. This PDF is a reading copy; the workbook is the working file.

Emails come from Prospeo and were requested as verified only (SMTP or BounceBan checked). Not found means Prospeo had no verified address, and Pending means Prospeo's rate limit stopped the lookup before it reached them.

Lead cards

1. Ravi Ramachandran, Founder & CEO, Nua

India | Priority | score 60 | batch 01

Contact

Email: ravi@nuawoman.com
LinkedIn: https://www.linkedin.com/in/ravishankarramachandran

Trigger

$50M Series C led by Peak XV and Filter Capital, around 7 Sep 2026.

LinkedIn activity

Milestone-only. Milestone-only. Indexed posts: the Nua x Zepto "zero irritation promise" campaign (Apr 2025) and a "Zero to Scale" video episode on building Nua (Feb 2026). The Series C shows up through FemTech Insider's post, but no post of his own is indexed yet.

Angle

The post-Series C window. Hiring, category leadership, and keeping the founder story alive between campaigns.

Teardown focus

Headline vs the Series C story, no featured section pointing to Nua, and the gap between the video episode and what he writes himself.

Notes

India. Warm, respectful tone. Expect a CoS or comms lead in the decision.

Email note

Prospeo SMTP

Connection note

Hi Ravi, congrats on the Series C.
Came across your Zero to Scale episode on building Nua. [one line on a specific moment from it]
Would be good to connect.

First DM

Thanks for connecting, Ravi.
Quick one. After a round like this, is your own LinkedIn something you want to put real time into?
Or is Nua's page doing that job for now?

Cold email. Subject: Nua after the Series C

Hi Ravi,

Congrats on the $50M Series C.

Nua's story gets told at big moments, like the Zero to Scale episode, then it goes quiet. In women's wellness, the founder's voice is a trust asset between campaigns too.

We run LinkedIn for founders: strategy, writing and posting, built around your voice.

Worth a 15-minute call next week to see what that could look like for you?

2. Karishma Rathaur, Co-founder, Firi

India | Priority | score 60 | batch 01

Contact

Email: No verified email found
LinkedIn: https://www.linkedin.com/in/karishmarathaur

Trigger

Firi was incorporated in June 2026 and raised a $3M seed led by 360 ONE Asset, with Better Capital and Kunal Shah, in September. It runs 9-minute beauty delivery in Gurugram. Before this she co-built Honestly; she and co-founder Vivek Madani met at Uber India and Flipkart.

LinkedIn activity

Milestone-only. Almost invisible. One indexed personal post, about advice she got growing up (Apr 2024).

Angle

A launch-stage founder brand. Customers, first hires, and the next round all check the founder.

Teardown focus

Headline still reflecting the old role, no Firi story on the profile, and what three posts a month could look like (building dark stores, what the AI picks up from Reddit and YouTube reviews, operator lessons from Uber and Flipkart).

Notes

India, early stage and price-conscious. Lead with a starter plan and mention the pilot option early.

Connection note

Hi Karishma, saw the Firi news. Nine-minute beauty delivery is a bold promise.
Following what you and Vivek are building. Would be good to connect.

First DM

Thanks for connecting, Karishma.
Curious how you're thinking about your own voice for Firi.
In beauty, people buy from people. Is founder content part of the launch plan?

Cold email. Subject: Firi's founder story

Hi Karishma,

Nine-minute beauty delivery and a seed round in the same quarter. Strong start.

In beauty, people buy from people. Right now Firi's story lives in press coverage, not on your LinkedIn, and that's where hires, partners and your next investors will look.

We build founder brands on LinkedIn, from positioning to weekly posts.

Open to a quick call to map out your first 90 days?

3. Sadra Hosseini, Co-founder & CEO, Ryft

UK | Priority | score 60 | batch 01

Contact

Email: sadra@ryftpay.com
LinkedIn: https://www.linkedin.com/in/sadra-hosseini

Trigger

€23M to speed up European expansion, Sep 2026.

LinkedIn activity

Went quiet. Went quiet. From 2022 to 2025 he posted steadily: FCA licence (56 comments), a practical post for founders who are fundraising, marketplace payments posts, Innovate UK grant. The last indexed post is Apr 2025.

Angle

Entering new markets. Buyers in France, Germany and the Netherlands will look him up before taking a call.

Teardown focus

A UK-only framing, the last post being 17 months ago, and a content line on marketplace payments for EU platforms.

Notes

UK. Plain and understated. "Might be useful" over "huge opportunity".

Email note

Prospeo SMTP

Connection note

Hi Sadra, congrats on the raise and the push into Europe.
Came across your post with advice for founders who are fundraising. [one line on the point you agreed with]
Would be good to connect.

First DM

Thanks for connecting, Sadra.
One question. With Europe in focus, do you see your own LinkedIn doing any of the market-entry work?
Or is that all sales and partnerships?

Cold email. Subject: Ryft's European push

Hi Sadra,

Congrats on the EUR 23M and the move into Europe.

Buyers in new markets will look you up before they take a call. Your last post was in April 2025, and your FCA licence post shows your audience responds when you do post.

We help founders turn that into a steady weekly presence without eating their week.

Worth 15 minutes to talk through a Europe-facing plan?

4. Erin Kelly, Co-founder & CEO, askpolly

Canada | Priority | score 60 | batch 01

Contact

Email: No verified email found
LinkedIn: https://www.linkedin.com/in/erinottawa

Trigger

$3M seed led by Differential Ventures (with The 98 and Forum Ventures), Sep 2026, to grow go-to-market in the US. askpolly grew out of Advanced Symbolics and turns social media conversations into market research.

LinkedIn activity

Went quiet. Went quiet. Sporadic posts (a hotel-industry marketing post, Jun 2024), and the company ran its own webinars and an AMA.

Angle

US buyers don't know her yet. One askpolly insight post a week would work as both content and product demo.

Teardown focus

A profile framed around Ottawa and Canada, no featured insight or demo, and a weekly "what people are actually saying about X" format.

Notes

Canada. Polite and practical. If you email, CASL applies: it must be relevant to her role and include an unsubscribe. CASL applies to email

Connection note

Hi Erin, congrats on the seed and the US push.
Turning social conversations into valid research is a smart angle.
Would be good to connect.

First DM

Thanks for connecting, Erin.
Honest question. askpolly surfaces the kind of insight that does really well on LinkedIn.
Have you thought about posting some of it under your own name for the US market?

Cold email. Subject: askpolly's US launch

Hi Erin,

Congrats on the seed and the US go-to-market push.

askpolly turns social conversations into insight. That kind of data does very well on LinkedIn, and right now none of it goes out under your name to the US buyers you want to reach.

We build founder brands on LinkedIn, one insight post a week to start.

Open to a 15-minute call to sketch it out?

LinkedIn: https://www.linkedin.com/in/radhika-gandhi-patil

Trigger

$12M Series A led by 3one4 Capital and Prudent, Sep 2026, for channel expansion, R&D and international markets. She's on the Forbes Technology Council.

LinkedIn activity

Milestone-only. Milestone-only, and silent recently. Indexed posts: product design award (2019), $7M raise (Nov 2021), US team growth (Apr 2022), #startupstories (Jun 2023). Nothing indexed since mid-2023.

Angle

A consumer hardware brand entering new markets. Her public voice builds retail partner and parent trust.

Teardown focus

Activity gap since 2023, a featured section that doesn't reflect the Series A, and a content line on sleep science plus building hardware across two countries.

Notes

US, based in SF, with an India connection. Be direct but warm.

Connection note

Hi Radhika, congrats on the Series A.
Cradlewise has been one of the more thoughtful hardware stories out of the India-US corridor.
Would be good to connect.

First DM

Thanks for connecting, Radhika.
Quick one. With new channels and markets coming, do you want your own LinkedIn doing some of that trust-building?
Or is it mostly a press and product-led push?

Cold email. Subject: Cradlewise, new markets

Hi Radhika,

Congrats on the Series A and the international push.

You've built great press around Cradlewise, but your own LinkedIn has been quiet since mid-2023. New retail partners and parents will look you up first.

We run LinkedIn for founders: positioning, writing and a steady posting rhythm in your voice.

Would a 15-minute call next week be useful?

Trigger

$5M pre-seed led by Alpha Edison; AI versions of health and wellness experts

LinkedIn activity

Emerging writer. Posts every few months (gaming, Web3, NotebookLM, a Delaware court post, Onix launch Sep 2025). Former WIRED contributing editor.

Angle

He can write. His product is built on experts' voices, so a strong founder voice fits. Pitch cadence and strategy.

Teardown focus

Cadence; Onix positioning in headline; expert-partner content.

Notes

Writer himself, so pitch strategy over ghostwriting.

Email note

Prospeo SMTP Prospeo lists Onix HQ as Montreal (sheet says Ottawa)

Connection note

Hi David, congrats on the pre-seed.
AI built on licensed expert knowledge instead of the average internet is a clear stance.

Angle

Large company with a practitioner audience. A CEO point of view on integrative health would lift a company-news feed.

Teardown focus

Company-news only; practitioner-facing content line; cadence.

Notes

Likely has an in-house comms team. Pitch executive content support.
